

# Innovative Solutions for Milling Profits

### Momentum 25 Feeder

Superior weight-based flow control maintains flow-rate within  $\pm 0.5$  to  $\pm 1\%$  of full rate

### FEEDamatic 67 Series Flow Control Scales

Maintain exact flow rates regardless of changes in material characteristics.

### SUMamatic 36 Series Flow Monitoring Scales

Continuous in-process flow rate and weighing accumulation monitoring

### FLOWamatic 47 Series Precise In-Line Weigher

Monitor and control flow or transfer with 0.1% accuracy by weight

### BULKamatic 47SH Series Legal Scales

NTEP approved, legal-for-trade, bulk receiving or load-out scale

### BlendView<sup>®</sup> Recipe Management & Control

Comprehensive recipe based blending management & control with live graphical display... ideal for elevator, tempering or finished Product blending

### MillView<sup>®</sup> Yield Management

Continuous process monitoring & complete production tracking with live trend graphs on Cleaning House & Mill extraction rates and individual stream flows
